Editorial | Uvodnik

Dear Reader,

For all those who have not paid attention yet to the Table of content or the upper left corner of each paper published in renewed outlook I would like to point out that all papers are classified in three categories:

- Review scientific paper,
- Original scientific paper, and
- Professional article.

Last year (volume 42 with its four issues) we have publish 34 original scientific papers and one professional paper. In the current issue it is my pleasure to announce a publication of the first review scientific paper that covers the research field of RF MEMS electrostatic switches.

I hope the review paper will encourage also you to submit a review paper in your field of expertise. In preparation of your manuscript do not forget to search for relevant papers published in our Journal. You can use a search engine on the web page <http://www.midem-drustvo.si/Journal/Home.aspx>, where you just need to click "Advanced paper search" by title or author.

We are proud to announce another improvement related to the visibility of our Journal. Recently we have become a member of vast **Google Scholar** database with all published papers in Informacije MDEM since 1989!

I am sure that this improvement will increase the readers of our journal followed by wider recognition in the field of microelectronics, electronic components and materials.

Marko Topič
Editor-in-Chief
